WHAT DID WE LEARN?
“It was a kind of silence that is deafening - the radio broke through it, somehow. To hear the music and another voice, in the middle of the night ... made me able to hang in there for one more night ... “

“If you know what is going on ... it’s much easier to do the right thing”

“I think that the music also made me feel normal for a while - to rest my brain”
RADIO CONTENT

- Encouragement
- General Information
- Relief Distribution
- Health & Other Topics

Reported health issues
- Physical Health: 28%
- Mental Health: 72%
