

LEGAL DOCUMENTS: MESSAGES

LAST UPDATE: MARCH 2022

About the Message Library

People affected by disaster must have access to timely, appropriate and accurate information to help them keep themselves and their families safe and well. They should know their rights, entitlements and be able to give feedback. Responders have a duty to put in place appropriate, systematic and coordinated mechanisms to ensure this.

Our Message Library offers clear, concise and simple messages on a range of topics as templates for you to adapt and use in the context you are working in. These are intended to help you make a quick start on communicating with communities while you further develop mechanisms for on-going dialogue with diverse groups within each community.

For help contextualising and using the messages we recommend you do our e-learning course and read the following technical guidance.
